European Union Water Initiative Plus for Eastern Partnership Countries (EUWI+)

ATLAS OF THE

DANUBE - PRUT AND BLACK SEA RIVER BASIN DISTRICT IN REPUBLIC OF MOLDOVA

CZU:556.51(084.3) A 91

Beneficiaries

Agency "Apele Moldovei"

Responsible EU member state consortium EUWI+ project leader

Mr Alexander Zinke, Umweltbundesamt GmbH (AT)

EUWI+ country representatives in Moldova

Mr Victor Bujac

Responsible international thematic lead expert

Marta BOYKO, Office International de l'Eau

Responsible national thematic lead expert

Iurie Bejan, OIKUMENA Public Association

Authors

Tudor Castraveţ, Vitalie Dilan, Lucia Căpăţînă, OIKUMENA Public Association

Disclaimer:

The EU-funded program European Union Water Initiative Plus for Eastern Partnership Countries (EUWI+) is implemented by the United Nations Economic Commission for Europe (UNECE), the Organisation for Economic Co-operation and Development (OECD), both responsible for the implementation of Result 1, and an EU Member States Consortium comprising the Environment Agency Austria (UBA, Austria), the lead coordinator, and the International Office for Water (IOW, France), both responsible for the implementation of Results 2 and 3. The program is co-funded by Austria and France through the Austrian Development Agency and the French Artois-Picardie Water Agency.

This document was produced with the financial assistance of the European Union. The views expressed herein can in no way be taken to reflect the official opinion of the European Union or of the Governments of the Eastern Partnership Countries.

This document and any map included herein are without prejudice to the status of, or sovereignty over, any territory, to the delimitation of international frontiers and boundaries, and to the name of any territory, city or area.

Summary

Map 1. DPBS RBD administrative-territorial structure	5
Map 2. Mean annual precipitations distribution in DPBS RBD in 2000-2017 period	6
Map 3. Multi-annual average air temperature map (period of 2000-2017)	7
Map 4. Hypsometric map and landscape units of the DPBS hydrographic area	8
Map 5. Land use in the DPBS RBD	9
Map 6. Alluvial aquifer complexes	10
Map 7. Prequaternary aquifer complexes	11
Map 8. Classification of towns/cities by the number of population	12
Map 9. Point sources (N, P, COD, BOD) – agglomeration	13
Map 10. Point sources (N, P, COD, BOD) – industry	14
Map 11. Point sources – global	15
Map 12. Diffuse sources - crops (N, P)	16
Map 13. Diffuse sources - livestock (N, P)	17
Map 14. Diffuse sources – global	18
Map 15. Discontinuity of water flow	19
Map 16. Water abstraction	20
Map 17. Morphological modification	21
Map 18. Hydromorphology – global	22
Map 19. Risk assessment	23
Map 20. Quality classes of surface water bodies	24
Map 21. Abstraction points for drinking purpose	25
Map 22. Areas with economically valuable fish species	26
Map 23. Areas of avifauna importance	27
Map 24. Areas proposed for their designation as nutrient sensitive areas	28
Map 25. Areas proposed for their designation as nitrate vulnerable zones	29
Map 26. Areas proposed for their designation as bathing water	30
Map 27. Surface water monitoring sites within the DPBS RBD	31
Map 28. Ecological classification of SWB in the DRBS RBD	32
Map 29. Environmental objectives at surface water body level set for the period of 2022-2027	33
Map 30. Basic measures proposed for urban waste water discharges	34
Map 31. Basic measures proposed for hydromorphogical alterations	35
Map 32. Basic measures proposed to reduce the pressure caused by climate change	36
Map 33. Basic measures proposed to reduce the pressure caused by floods	37
Map 34. Supplementary measures proposed for urban wastewater discharges	38
Map 35. Heavily Modified Water Bodies (HMWB)	39
