The Message of "Petru Maior" University's Rector

Dear Guests,

The fundamental goal of the International Conference *Literature, Discourse and Multicultural Dialogue* (which has reached its 4th edition this year) is that of bringing together, within a generous range of topics, emerging scholars and researchers from different fields of radical relevance for the contemporary society, a society that is supposed to secure its future not only on the economic and ecological level, but also on the spiritual one. The cultural discourse, fundamental sciences, literature and the arts thus gain new connections and dimensions through fundamental changes and structural progress, so that the social end-results of education and research become extremely important. It is a fact that in our postmodern times, we live in a society of knowledge, from which we benefit directly in our everyday life, but to the risks and dangers of which we are at the same time exposed. *Non scholae sed vitae discimus* (*We do not learn for the school, but for life*) becomes a creed that every academic institution has to put into practice by means of its activities. It is essential that the path between education and research is very short, especially in academic systems. Research generates new knowledge, creates a favourable atmosphere for change, and provides people with information and data which help them to become aware of the mysteries of the universe and to make the most of their activity in all fields of knowledge. In this interesting and captivating century, to the noble mission of educating the younger generations we must also add the fruit of the efforts in research, materialized in interesting works and papers, together with ideas generated by the creative ability which ennoble the personality of the academic.

The host of this international conference, *Petru Maior* University of Tîrgu Mures, is permanently changing and gaining new valences. As a matter of fact, our specializations, assets, human resources and research grants are all in an upward dynamics, which proves that we are on the right track and also gives us the certainty of our continued existence as an institution with clearly defined and completely assumed missions. The 4th edition of the International Conference *Literature, Discourse and Multicultural Dialogue* integrates into the tradition of far-reaching scientific events that have been taking place at our university throughout time. The fact that this conference is organized by the Faculty of Sciences and Letters of *Petru Maior* University proves once again how important it is for us to consolidate our cooperation with other universities and institutions of research from our country and from abroad.

I wish to express my hope that this scientific event will take place under the most favourable auspices and that it will represent a remarkable starting point for further evolution and development in the field of knowledge. Let this international conference provide a good opportunity for us to gain and transfer knowledge, to generate new theories in the world of science – essential aspirations of any contemporary research.

Prof. Dr. Călin ENĂCHESCU
